The background of the page is a complex, abstract geometric pattern composed of numerous triangles in various shades of blue and yellow. The pattern is dense and layered, creating a sense of depth and movement. The colors transition from deep blue on the left to bright yellow on the right, with white spaces interspersed between the triangles.

Who wants to Study in Europe

## What is Erasmus+ ?

Erasmus+ is the European Union (EU) programme for education, training, youth and sport for the period 2014 - 2020. Erasmus+ funds academic mobility and cooperation projects that involve partners from "Programme Countries" and "Partner Countries" throughout the world. The 33 programme countries comprise the 28 EU Member States plus five other European countries. Erasmus+ supports activities that are closely matched with the EU's priorities for cooperation policy with partner countries and regions. Three years into the programme, we can see how popular these initiatives are with countries from the region.

### International Credit Mobility

For over 30 years, students and staff have moved between European universities in the Erasmus programme. Since 2015, Erasmus+ has also allowed short - term and long - term mobility to Europe from other parts of the world for students, researchers, and staff. This two - way mobility allows students to study in a foreign university for 3 - 12 months and obtain credits which are then recognized at the sending institution as part of their degree. A grant for staff mobility is also possible for 5-60 days. There are distinct budgets for different regions of the world that are divided between all the European countries. Programme-Country institutions make up bilateral partnerships with universities from ACP countries and apply on behalf of their partners.

### Erasmus Mundus Joint Master Degree

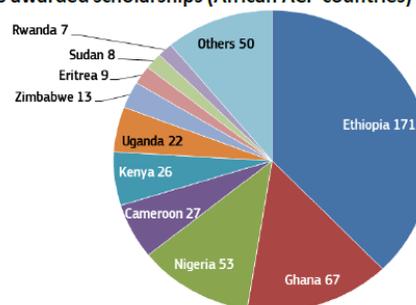

Erasmus Mundus Joint Master Degrees (EMJMDs) award EU-funded scholarships to Master students from around the world that cover covering tuition, travel, and a living allowance. The programmes last from one to two years during which students study in at least two different European countries, and obtain a joint, double degree, or

multiple degree. Institutions from partner countries can also be part of the consortia that deliver these programmes (though this is not obligatory) as Full Partners, which means they officially award degrees, or as Associated Partners, where they participate in the programme in some kind of capacity, but do not award the actual joint degree.

## Erasmus Program Scholarship

The Erasmus programme the premier scheme for students throughout the world who wish to study abroad in Europe, comes with a series of possible scholarship that are designed to aid the students in getting the placement they want. Students are split into categories for consideration as scholarship candidates. Any student of any nationality. Studying at a higher education in situation which is awarded the Erasmus Charter for Higher Education can apply. The mobility is carried out in the framework of prior "inter-institutional agreements" between the sending and receiving institutions. Therefore, the decision on where to go should be discussed with the sending Higher Education Institution and the first step for the students would be to apply to their international office and/or Erasmus+ office to get information about the possibilities of studying or doing a traineeship, abroad as well as the modalities to apply and to receive an Erasmus+ EU grant. Also Available are scholarship for students from within the EU who are required to contribute to their funding to some degree.

### **Support be provided or fees charged?**

Students may be awarded an Erasmus+ EU grant to help cover the travel and subsistence costs incurred in connection with their study period abroad.

Erasmus+ students - whether or not they receive an Erasmus+ EU grant - are exempted from paying fees for tuition, registration examinations and access to laboratory and library facilities at the host institution.

The payment of any national grant or loan to outgoing students should be maintained during the study period abroad.

The countries that grant a full scholarship for Ethiopian students for march 2019 intake are Italy, Germany, and Sweden. Director of Erasmus and UK National Agency Jane Racz Signed the official Letter that grant 75 Ethiopian students to Study in the above countries.
